

Health Care Services for residents in Friendship Heights Village

SUBURBAN HOSPITAL

JOHNS HOPKINS MEDICINE

Developed by the Friendship Heights Village Council
in cooperation with Suburban Hospital

Blood Pressure Screenings

Blood pressure screenings are held at the Village Center at no charge every Tuesday, from 12 to 4 p.m., on a first-come, first-served basis. These screenings are part of the ongoing educational and preventive health services provided at the Village Center. Read the latest issue of The Village News for information about upcoming health services.

Nurse Health Educator

A Nurse Health Educator from Suburban Hospital is at the Village Center from 2 to 4 p.m. every Tuesday. She is trained to independently consult with patients on medical concerns. She can help answer questions about medications or physician's instructions, and help serve as a first step before one pursues additional help.

There is no charge for these services.
