# Page Park Redevelopment Scheduled to Begin August 1

GreenSweep, the contractor hired to perform the redevelopment of Page Park, has informed us that it will begin construction inside the park on Monday, August 1, weather permitting. The park will then be closed to the public, with the exception of possibly providing pedestrian access through the park along the east side to the path that goes behind 4615 North Park Apartments and leads to the Town of Somerset. During the construction period, the loading zone on North Park by the park entrance will be occupied by construction vehicles, and the adjacent sidewalk will be closed periodically.

GreenSweep further informed the Village that the construction schedule will entail two phases: Phase 1 will take approximately four-to-six months to clear out the area, protect the surrounding trees, and build out the new park; and Phase 2, the shorter stage lasting approximately one month, will likely begin in early spring 2023 with the installation of landscaping, irrigation, lighting, and sod.
