# Montgomery County Requires Permit for Pergola in Page Park; GreenSweep Authorized to Resume Work During Permit Application Process

The Montgomery County Department of Permitting Services has informed GreenSweep, the contractor hired by the Village to perform the redevelopment of Page Park, that a building permit is required for the pergola structure in the park. **The County's current Stop Work Order pertains only to the pergola and the park's accessibility features.** GreenSweep has now been cleared to resume work on the rest of the project. The Village and GreenSweep are working with the County to obtain the required commercial building permit and to confirm whether any additional measures are needed with regard to ADA requirements in addition to what has already been constructed. The Village will keep the community updated accordingly.
