County Councilmember Evan Glass to Host a Community Conversation on Building Energy Performance Standards (BEPS) at the Village Center

Montgomery County Councilmember Evan Glass will host a community conversation at the Village Center on **Thursday, June 27 at 10:30 a.m.** This is an opportunity for residents to learn more about the Transportation and Environment Committee's (TEC) work, the process moving forward for the Building Energy Performance Standards (BEPS), and for residents to ask any questions they may have of Councilmember Glass.

As Chair of the TEC, Evan Glass has scheduled a number of Transportation and Environment work sessions focused on listening to various industries about the BEPS regulations. The work sessions have included hospitals, life sciences, and affordable housing providers. Over the next few months, he will focus on additional industries, including multi-family developers, condominiums, public utilities, and faith organizations.

The next TEC work session will take place on **Monday, July 15 at 9:30 a.m.**, focusing on multi-family developers and condominiums. This public work session will also include representatives of multi-family developers. TEC welcomes participation from Village residents in this public work session.
