

LITTLE FALLS WATERSHED ALLIANCE

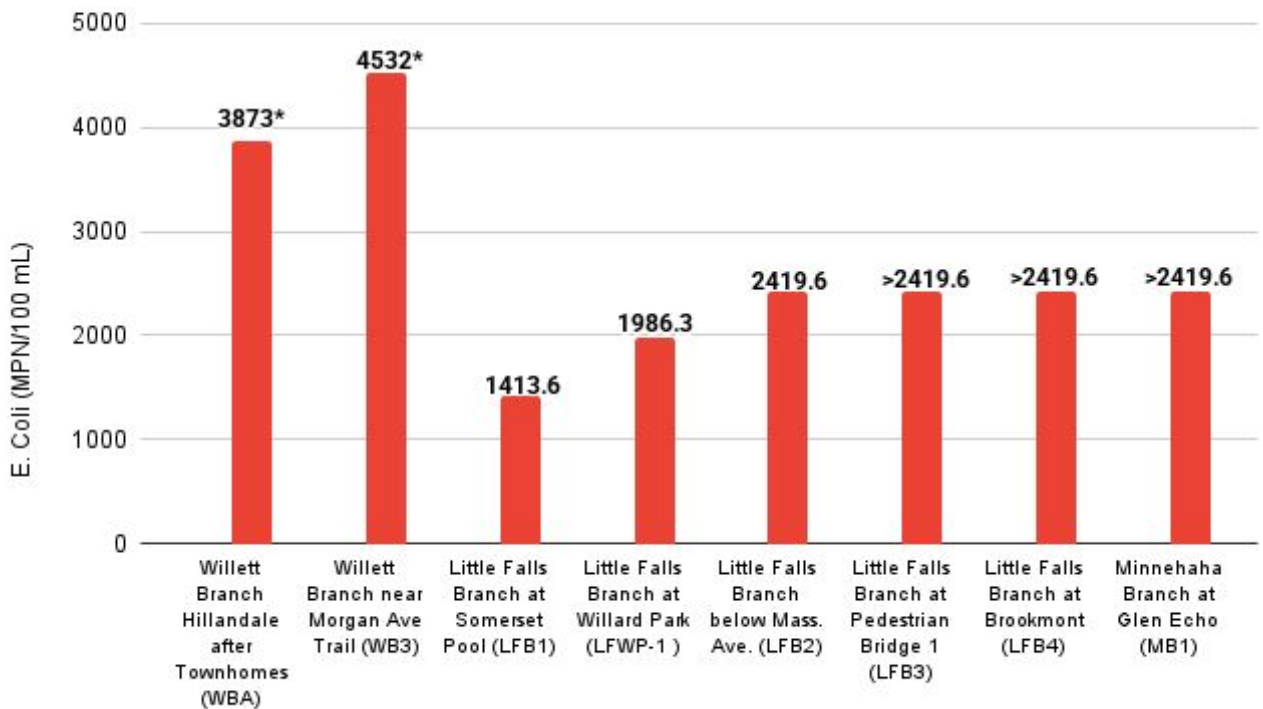

EDUCATION - ACTION - STEWARDSHIP

FECAL BACTERIA RESULTS - September 17, 2025

Little Falls Watershed E. Coli Bacteria Count - 9/17/2025

■ Pass: Between 0 and 410 ■ Fail: Over 410

* Sample tested with 10% dilution as bacteria count frequently exceeds the standard test limit

PASS: Meets MD State Standards for Water Play. (Count is < 410 MPN/100ml)

FAIL: DOES NOT meet MD State Standards for Water Play. (Count is > 410 MPN/100ml)

The Little Falls Watershed Alliance conducts weekly testing for fecal bacteria at eight different sites throughout our watershed. We test to inform the public on the safety of the creeks for recreational activities.
